

Stone-Veneer® Wall

Create impressive wall coverings either with large panel formats or an easy-to-handle size.

Stone Veneer Wall, made of genuine stone veneer on a 7mm thick PU (polyurethane) foam backing.

With a total thickness of approximately 8.5 mm Stone-Veneer® Wall can simply be attached with flexible tile adhesive. Nothing could be simpler.

All surfaces are protected against dirt/soiling with Impregnation supermatt.

All Stone-Veneer® designs can easily be worked on with carbide tools.

Smaller or big sizes for impressive stone-walls

Available in 11 fascinating stone designs

Surface protection

Easily to use as tiles
